

Fabio Amone

Aremat, spin-off of the University of Calabria; Department of Informatics, Modeling, Electronics and Systems (DIMES)

CEO of Macrofarm and Nutratch, spin-off companies of the University of Calabria, specializes in nutraceuticals and dermocosmetics. With expertise in advanced extraction technologies, microencapsulation, and clinical development, he drives innovative research and international projects focused on sustainability, upcycling of Mediterranean plant by-products, and the creation of innovative cosmetic and nutraceutical supply chains.
