

## **Renato Grillo - CV**

He is an Associate Professor in the Department of Physics and Chemistry at São Paulo State University (UNESP), Brazil. He earned his M.Sc. and Ph.D. from the University of Campinas and completed postdoctoral research at the International Iberian Nanotechnology Laboratory (INL) in Portugal and at the Federal University of ABC in Brazil. His research interests mainly focus on environmental nanotechnology based on developing advanced nanostructured materials for a controlled release of agrochemicals, interactions of nanopesticides with natural colloids, exposure, and risk assessment. Dr. Grillo has published over 85 peer-reviewed articles, which have received more than 13,200 citations. He has an h-index of 40 and an i10-index of 77, and he supervises undergraduate and graduate students in the Materials Science Graduate Program at UNESP, Ilha Solteira, Brazil.
