

Michele Iafisco is Director of Research at the Institute of Science, Technology and Sustainability for Ceramic Materials (ISSMC) of the National Research Council (CNR). He holds a Master's degree in Chemistry and a PhD in Chemical Sciences, with over 18 years of experience in materials science. His research focuses on biomaterials, biomineralization, nanotechnology, calcium phosphates, nano-enabled agriculture, and the circular economy. He has coordinated and participated in numerous national and international research projects, serving as principal investigator and research unit leader. Dr. Iafisco has authored more than 150 peer-reviewed scientific publications, 18 book chapters, 2 books, and holds 8 patents. He is a member of the editorial boards of international journals and regularly acts as an expert evaluator for the European Commission and other European research agencies. He is also co-founder of NanoPhoria Srl, a CNR spin-off company, which focuses on pioneering inhalable cardiovascular treatments through non-viral, nano-in-micro delivery of biologics.
