

Ali Nawaz – CV

He received his PhD in Physics in 2018 and completed his post-doctorate in 2020. Since 2021, he has been working as a researcher at the Micro Nano Facility (MNF/SD), Fondazione Bruno Kessler (FBK), focusing on the development, optimization and quality-control of plasma etching processes. He is also managing several projects related to the production of silicon-based optoelectronic devices. He is a member of the editorial board of *Frontiers in Electronics and Biosensors*, and is also associated with the CNR-INFN (Trento) node of the NFFA-DI research infrastructure.
